

EF-BM-4000 / EF-BM-4001

BIDET TOILET SEAT

MFG Model: DB-210E, DB-210R

Before you buy your bidet, you'll need to determine what type of toilet bowl you have. Generally, there are 2 categories of toilet bowls (and bidets) - round and elongated. The process is easy, take your measurements by following these simple compatibility guidelines below:

- 1** The distance from the center of fixing holes to the front of the toilet bowl must be
17.3" - 17.9" for Round type (EF-BM-4001)
18.3" - 19.1" for Elongated type (EF-BM-4000)
- 2** The distance from the toilet tank to the center of the fixing holes must be at least 1.5"
